This map shows the distribution of street light fittings in the core APRA area as at July 2016. The upper case letter indicates the style of the light head and the number the style of the lamp-post, both as identified on the photo page. In addition the lower case letter at the end shows the approximate paint colour: b= black, g= battleship grey, s= silver. All errors are the sole responsibility of APRA Secretary, Robert Pankhurst, who welcomes comments.
